

2017 INDUSTRY REPORT: VIRGINIA HOSPITALS AND NURSING FACILITIES NORTHERN VIRGINIA HOSPITAL EXCERPTS

Employers and healthcare purchasers want to spend their healthcare dollars wisely. Finding the best value in healthcare often means choosing hospitals that provide services based on good science while avoiding duplicative and unnecessary services. Making healthcare information transparent to the public helps consumers and businesses make better healthcare decisions. Below are a few select Efficiency and Productivity measures from Virginia Health Information's *2017 Industry Report: Virginia Hospitals and Nursing Facilities*. The Industry Report contains important information on how much hospitals are paid, charity care provided, staffing levels and profit margins. For the bottom line on efficiency, the Composite Efficiency and Productivity Score is an overall ranking of hospitals based on ten cost, utilization and efficiency measures. All indicators are on the web at www.vhi.org or in the easy-to-use files on the CD found in the publication.
